WRANGELL EAGLE

Vol. VIII. Ed. 4

Wrangell Institute
Wrangell, Alaska

March 16, 1968

EDITORIAL

Hard work and studying pays off. All the grade levels at Wrangell Institute have just finished taking their Metropolitan Achievement Tests. It has been a great source of satisfaction to many of us. When a student sees he has made a substantial gain in his test scores, he feels he has accomplished something. After studying and working hard all year in the classroom, we find it pays off in the end. Now that many of the eighth grade class will be going on to high school, they are all looking forward to this experience. Some of the students may also go on into college to learn and practice more in achieving their goal. This experience will help them in getting better jobs, and lead them into much better lives.

OFFICE NEWS

On February 6 Robert L. Bennett, Area Director, spent the night at Wrangell Institute. This was his first visit to Wrangell. He had a chance to visit the classrooms and talk with many of the people here. We hope he can come again.

On February 8 John Gordon, Principal at Barrow, made a surprise visit. The Barrow students were glad to exchange greetings. He made a hurried tour of the campus as he had to catch the afternoon plane back to Juneau.

Olin O. Pruett, Relocation Officer, arrived on St. Valentine's Day for a two night stay. While here he visited with the Martins while not busy with official duties.

William H. Davis, Area Budget and Finance Officer, and Alfred W. Bartlett, Assistant, Area Budget and Finance Officer, spent the night of February 20 at the Institute. While here they discussed Student Bank procedures with Mr. Murrell, Mrs. Churchill, and Mrs. Cooper.

Mr. Tiffany left Monday, March 12 for Juneau to attend a meeting from March 13 through 16. Policy matters and personnel plans will be discussed.

A meeting will be held on March 19 and 20 in Ketchikan to arrange for the return of students to their homes at the close of school. Mr. Tiffany will attend. Mr. Lawrence Kozlowski, former Depart-

ment Head, Guidance at the Institute, now the Area Field Representative at Fairbanks, will return from the Juneau meeting with Mr. Tiffany and will visit the campus before going on to the Transportation meeting in Ketchikan.

CUB SCOUT NEWS

Cub Scout Den 5 were hosts to Den 10 from Wrangell. When Den 10 came to the Institute, the boys worked on the rope achievements.

When Den 5 visited in town, the boys worked on the using tools achievements. The boys made bird houses, a bean bag game, and a storage shelf for the Cub Scout Den in town.

The garden hose, the cabbage, & the tomatoe had a race. "I bet that hose comes out in the long run!" "No! The cabbage came out ahead, the tomatoe was trying to ketchup, and the hose was still running."

SUMMARY OF THE BASKETBALL SEASON

The Wrangell Institute "Eagles" closed the season with a fine win over the Wrangell "Pups" making their season record six wins and one defeat. Harry Kaleak was the high point man for the 1961-62 season with 79 points. The rest of the boys scoring are as follows:

John Stein 28, Frankie Jones 21, Bert Kanayurak 6, Tommy Sagconick 35, Larry Larkin 1, Calvin Stein 3, Gary Thomas 5, Phillip Masuleak 4, Clyde Sielak 2, Mike Leavitt 2, and Stanley Nusunginya 2.

This makes a total of 188 points. The Wrangell "Pups" scored 120 points in their seven games.

The best basketball game of the season was turned in by the Wrangell "Peanuts" when they scored a 19 to 14 win over the town "Peanuts." The town team led at the half 14-5. The comeback in the second half was sparked by Garrett Aukon (Elim) and Mickey Boskoffsky (Sitka). The season record of the Wrangell "Peanuts" was 2-2, with 71 points being scored by the Institute team and 61 points by the town team.

"Peanuts" scoring for the season: Mickey Boskoffsky (Sitka) 14, Garrett Aukon (Elim) 10, James Itta (Barrow) 8, Peter Jackson (Shaktoolik) 8, Wesley Matsuno (Ugashik) 7, Walter Mark (Northway) 7, Joe Kunaknana (Barrow) 7, Ronald Numnik (Barrow) 6, Clyde Ahmaogak (Barrow) 2, and Peter Roberts (Goodnews Bay) 2.

Congratulations are in order for both teams for the fine sportsmanship displayed throughout the season.

Horsepower was much safer when only the horse had it.

Arrow Printing

BOYS DORM NEWS

Section 19 and 8 had honor rooms for the month of February. Students who are living in Section 19 are: Peter Jackson, Clarence Savatilik, Oscar Takak, Reuben Auliye, Oswald Moses, and Frank Matumeak. Students living in Section 8 are: Wassillie Pleasant, John W. Sharp, John Jones, Levi Williams, Albert Atseriak, and Donald Augustine.

Each Section has elected a boy to be a member of the Dorm Council. They have elected Robert Okitkun for Section 1, James Itta for Section 2, Frank Kavairiook for Section 3, Andrew Evan for Section 4, Paul Passimika for Section 5, John Oktoyak for Section 6, Andrew Tony for Section 7, Albert Atseriak for Section 8, Mickey Boskoffsky for Section 9, David Kippi for Section 10, Gary Thomas for Section 11, Arthur Panigeo for Section 12, Harold Mongoyak for Section 13, Harry Kaleak for Section 14, Max Akpik for Section 15, Frankie Jones for Section 16, Guy Okakok for Section 17, Willie Kagak for Section 18, none picked as yet for Section 19, and Leonard Andrews for Section 20. They are to see that a person is punished for the things he has done wrong.

Packing up and getting ready to go home will start on the 15 of March.

Calvin P. Stein

SHOP NEWS

In Shop all the girls are doing real well. Most of the girls are making things such as picture frames, jewelry boxes, hearts, pennants, plaques, and other things. We are also learning how to handle various tools.

Bertlyn Thomas

ROOM A NEWS

We made hens, chicks, airplanes,
and dog sleds out of clay.

The school had a movie "North of
Nome" - we liked it very much.

We like to do our lessons, all of
us like to go to school.

It snowed Sunday. I had a birth-
day party.

Ralph Beans

We had a Valentine party.
We made things out of clay.
We had a test.
We will go home soon.
I have three dolls.
We had a movie Sunday.

Angela Abouchuk

ROOM B NEWS

At home in the fall there are lots
of moose. Sometimes my Mom calls
them ghost moose because we never
see them, all we see is their
tracks. One time we were walking
around and my Mom said "Look!"
and there was a great big bull
moose in the field. We watched
it about an hour and went on.
We saw about 3 moose and 4 bears.
One time I went to Anchorage on
a train. We saw a grizzly bear,
3 moose, and 4 caribou.

Daniel Callahan

In the Library I read about three
little pigs. In school we
always work in our books and do
arithmetic. We do art work in
school too.

Bernadette Steve

It is only the people with push
who have pull.

Dewar

ROOM B NEWS (continued)

I read about Kitty the Cat and
The Three Little Pigs, and I read
about Kit Carson.

On September 12, I had a birthday
party. I ate cake, ice cream,
and meat at my birthday party.

In the music room I sing all the
time because I like it.

Natalia Macar

Sunday we went on a hike with
Mrs. Moritz. We walked a long
way. We went at 2:30 and came
back at 4:00. It took us a long
time to walk. We found an old
ice skate when we were walking.
We picked berries. I found a
marble too. When we came back
we washed our hands and got ready
for supper. We had a good supper.
We had a movie. The show was
about wild horses and two
stalions. One died because the
two horses fought. The name of
the show was "The White Stallion".

Mary Atwater

JULY BIRTHDAY DINNER

All the students and staff mem-
bers who had birthdays in July
went to the July Birthday Din-
ner at 5:00 P.M. on February 15.
We had turkey, mashed potatoes,
olives, biscuits, cranberry
sauce, ice cream, cake, and milk.
We all had a wonderful time.

Helen Atwater

SCIENCE CORNER

Intermediate Science classes
have been studying about "Our
Five Senses" and their care.
Movies and filmstrips have help-
ed to show structure use and
care of eyes, ears, nose, and
nervous system.

WRESTLING TOURNAMENT

The Intramural Wrestling Tournament was completed in February. All the boys who signed up to wrestle were assigned a class, based upon age, height, and weight. A total of 55 boys were divided into six classes. The champions and second place winners for each class are as follows: Class A: Albert Atseriak (Quinhagak) First; Class B: Evans Ihsogeak (Barrow) First, and Guy Okakok (Barrow) Second; Class C: Frank Matumeak (Barrow) First, and Wassilie Pleasant (Quinhagak) Second; Class D: Johnny Leavitt (Barrow) First and William Kagak (Barrow) Second; Class E: Arnold Brower (Barrow) First and Harold Mongoyak (Barrow) Second; Class F: Oscar Takak (Shaktolik) First and Leonard Andrews (Bill Moore Slough) Second.

The next tournament will be a basketball tournament starting in March.

A-V NEWS

For the last two basketball games that we played down town, student scorers were used. Guy Okakok, Jr. kept score for the "Peanut" squad game and Robert Mendenhall was the score keeper for the game that the "A" squad played.

Max Akpik and George Williams have been voted honorary members of the A-V Club. These boys are asked to be honorary members because of the very good jobs of operating equipment that they do in their classrooms. The A-V Club takes pleasure in inviting these boys along with the teachers who trained them to accept honorary membership in our club.

Gloria David

ROOM C NEWS

We watched Room I performing experiments in our last Assembly Program. This aroused our interest, so now we are studying about air. We are arranging on our Bulletin Board things we have learned about air. We will be adding more to this as we learn more about air and its many uses.

Joseph Evan
Franklin Prince

Jane Atwater and Rosie Prince are reading us stories about Paul Revere and Thomas Jefferson. These two men we were not familiar with when we were asked questions at the Assembly Program by Room I. We will be prepared next time.

Gacinta Steve
Margaret Elachik

NEWS FROM ROOM D

Room D held their class party Monday, March 12. First they played "Cootie" in Room D, then the class went to the Library to dance to the Rock N' Roll rhythm of the Rec Room record player.

Cookies and kool-aid were enjoyed by the group.

Clarence Savetilik was the "Cootie" champion for the day.

TEENAGE GIRL OF THE MONTH

This teenage girl of the month has black hair, and wears glasses. She is 4'11" and weighs about 106 pounds. She has a nice personality and likes to dance. She is 14 and from Barrow, Alaska. Her favorite singers are Paul Anka, Fats Domino, and Elvis Presley. Her favorite record is "What A Price." Can you guess who she is? Look on the last page for the answer.

BASKETBALL BANQUET

The annual Basketball Banquet was held on February 19 in the Girls' Reception Room. A splendid ham dinner was prepared and served by members of the Boys' Homemaking Classes. Guest speakers for the evening included both Mr. James Lenley and Mr. Leo Dow who were the score keepers for this season.

Basketball letters, based upon the total time played were awarded to Joann Stein (Kotzebue), Bert Kanayurak (Barrow), Earl Ahsogeak (Barrow), Robert Mendenhall (Kotzebue), Gary Thomas (Northway), Calvin Stein (Kotzebue), and Larry Larkin (Selavik). Cheer-leading awards went to Anna Stine (Barrow), Ida Ayagak (Barrow), and Brenda Aungasuk (Barrow). Harry Kaleak (Barrow) and Frankie Jones (Kotz)

ROOM E NEWS

Room E girls and Room F girls had a volleyball game on Sunday afternoon. It was an exciting, fast game. We screamed and screamed. Room E won the first game 7 to 15. We won by 12 points. Sunday, Room E and Room G are going to play. We hope to win. May Leavitt always serves. She always lets us win.

Vera Solomon, Molly Adams, Elsie Simmonds, Doreen E. & Russell K.

We are playing in the Basketball Tournament. Yellow beat Red 27 to 23. Charles Sakeagak and Rex Nungasak are on the Yellow team. Saturday the next teams will play. All of us are excited over it.

David Pippi, Charles Sakeagak, & Rex N.

We had our Boy Scout meeting Wednesday. Our Boy Scouts are Clyde Ezzik, Hugh Tiglook, Jacob Sanguik, Richard Suulu, Harvey Mongoyak, Thomas Akpik, Robert Suulu, Edward Burnell, Russell Kalagauk, Johnny Leavitt, William

Kagak, Rex Nungasak, and Charles Sakeagak. Our Scout Leader is Mr. Russell. He taught us how to stop bleeding by putting pressure on the blood vessel. We learned how to tie the knot and how to be friendly.

Johnny Leavitt
William Kagak

The boys sure like cooking. Joe, Charles, Thomas, William, Eli, Hugh, David, and Clyde say they are going to do all the cooking when they go home. Charles, Johnny, Joe, Edward, and Russell made gingerbread cookies. Hugh, Jacob, Ronald, Richard, David, Clayborne, Eli, and Clyde made oatmeal cereal. It was very good. Johnny, Joe, and Charles made an angel food cake. David, Jacob, and Thomas made peanut butter cookies. Charles, Rex, Joe, and Johnny made the cake for the March Birthday Party. When we went to Home Ec. we made cookies, gingerbread, pancakes, oatmeal, and we ironed a few aprons. We have lots of fun at Home Ec. The boys like cooking so much that they want to be girls now. Mary Kaleak is the only girl that wants to be a boy. Cooking must be more fun than shop.

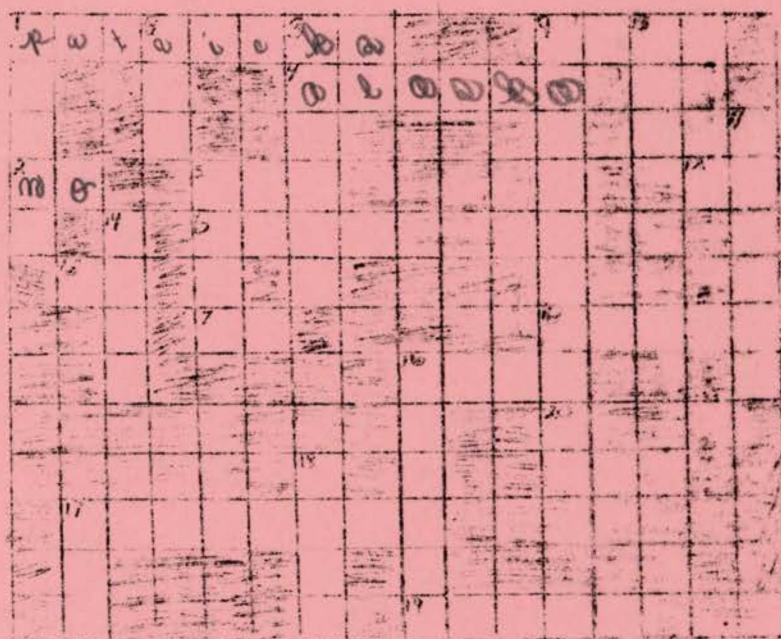

Kenneth Leavitt

Eli Varnes was making a kite. When it was finished it didn't want to fly. Maybe the stick or tail was too heavy. I just laugh when Eli try to make it fly.

Robert Suulu

We decorated our room for St. Patrick's Day. We have shamrocks on the walls and dancing Irish boys and girls. On the lights are pretty colored crepe paper streamers. The papers that we colored we hang on the wall and door. You should visit our room. Jacob, Ronald, and David cut out shamrocks and took them to the lower rooms.

Alice Aishanna

ROOM F NEWS

On March 5 Wrangell Institute started giving Achievement Tests to the girls and boys to find out how much they have learned. So far everyone is doing fine. Rose Prince, a student in Room C, has a very high score. We thank her for being such a good student. We also thank all other children with good scores. We give our most graceful thanks to the hard-working teachers of Wrangell Institute.

Roslyn Jones

On March 10 Frankie Jones play Tommy Sagoonick's team. Frankie Jones' team were the best players. On Frankie's team are Max Akpik, Arthur Fields, and Clyde Okomailak. Tommy Sagoonick's team lost by 10 or 12 points.

Wassilie Pleasant

In the girls dorm we are making things like knitting hats and slippers, embroidery and bead work. We are making them for the fair. We are going to sell the things we make for the fair.

Annie Cldfriend

Last week, on Thursday, Miss Rulis came back from Juneau. When we had guidance she told us that she went to Juneau to get her teeth fixed.

Naomi Ruth Evans

Our teacher, Mrs. Ruby Kuckuck, went to town to watch the school teacher to see how they teach.

Albert Friendly

A little girl wrote in answer to an examination question:

"The Armistice was signed November 11, 1918, and since then we have had two minutes of peace each year."

NEWS FROM ROOM G

In school we have been studying about the British Isles in Social Studies. They are located in the North Atlantic Ocean, east of Europe. It lies off the coast of Europe. It is well located for trade and good harbors. It is made of two large islands which are Great Britain and Ireland. The people have a long heritage of freedom, believe in education, are hard working people, and have skilled leaders in government, business, science, literature, art, and music. People make a living by farming, canning, minning, trading, pottering, and fishing. We will soon be finishing up this unit. It was a good story we have read. I hope you will read it sometime. It was interesting to study about the British Isles.

Evelyn Stine

During the week of March 5, all the students had their achievement tests to see how the students are improving in their school work. After we took the test, teachers in each grade corrected them and then told us how much we had gained in each subject since our fall tests. We all did very well in taking the test.

As you already know, the teachers are really trying their best to teach us what we don't understand. This we appreciate very much.

Lucille Killbear

We are studying magnets in Science. It attracts magnetic materials like iron, steel, nickel, etc. The force of the magnet will not pass through magnetic materials as it will through non-magnetic materials. Some alnico magnets attract things more than 400 times their own weight. Alnico is made out of aluminum, nickel and cobalt. So it is an alloy. Alloy is materials combined together.

Martha Jane Aiken

REPORT ABOUT RED CHINA - ROOM G

A few years ago, Chinese Communists were boasting of the Great Leap Forward. Today, they are worried about a great leap backward. Red China is in trouble. This country does not have enough food to feed its 700 million people or enough clothing to keep them warm. They do not have nice warm neat houses like us. Hungry families even look through rubbish to find bits of food.

The Chinese had more food before it became communist. The population is even increasing 15 to 20 million a year. They are allowed only $2\frac{1}{2}$ feet of cotton cloth a year. What do you think they could do with only $2\frac{1}{2}$ feet of cotton cloth?

Many refugees are going to Hong Kong which belongs to the British. There they are finding better food, homes, and clothing. Other refugees live on fire escapes, rooftops, doorsteps, or anywhere they can find a place to stay. Their only utensil may be a cup. But he is free and Hong Kong rushes to build a better place for him to live.

We are fortunate to be taken care of and are thankful for what we do have.

Clara Kudraluk

THE NEW MATHEMATICS

A six year-old, just introduced to subtraction in school, turned to her grandmother, who was visiting her, and said, "We are now a family of five, but when you go home, we will only be four. You are the 'take-away.'"

Christian Science Monitor

NEW FROM ROOM H

We have been studying about Alaska since we have started school, so our class decided that we should have an Assembly Program about Alaska. After we decided this our class picked a committee and they made a list of games. The games are Eskimo dancing, seal flip, Eskimo songs, knee walk, high kick, and some others. I hope you boys and girls enjoy them.

HOMEMAKING - ROOM H BOYS

The boys in Room H have been cooking and sewing in the Home Ec Room. We appreciate Miss Stephens' help. The things that we have been cooking are pies, biscuits, cherry pudding, and some others.

Clyde and Harry

INTRAMURAL BASKETBALL TOURNAMENT

The Intramural Basketball Tournament has just started here at the Institute. The first game was played between James Itta's team and Johnny Leavitt's team. It was a very good game. The final score was 46-37 with James Itta's team being the winner.

The second game was played by Garrett Aukon's team and Joseph Kunaknana's team. In this game Garrett got slaughtered. The score was 42 to 10 in favor of Joseph's team.

The third game was played by Tommy Sagoonick's team and Frankie Jones's team. Tommy's team was leading in the first half and then Frankie's team got ahead in the second half. The final score was 59-46 with Frankie's team emerging the winner.

(continued page 10)

BASKETBALL (continued)

The fourth game was between Harry Kuleak's team and John Stein's team. It was a very good game. Harry's team lead John's team all through the game. The final score was 58-41 with Harry's team ahead.

There will be more games played later this month. The results will be given to you in the next issue.

Tommy Sagoonick

NEWS FROM POINT LAY

Samuel Agnasagga writes from Point Lay, "Everything is going fine here, the hunters are doing fine, also the trappers. My son, George, kill one Polar bear recently and some foxes. Everyone was kept home last week because of the strong wind from south. This blowing did something to the villagers, many thing are blown away, the roof of the school building, a metal 4x8, many of the come off and been blown away some miles away. Both chimney knock down, some people caches knock down, many barrels roll away, and so many other things, the lagoon filled with water and there was ice piling on the ocean side.

There are 5 or 6 dog teams are come down from Wainwright to have a dog race here. Sometime ago, several years pass, we had beat them, and are hoping this bring us a good luck again. My wife, Ruth, making a flag, because the winner last time has lost his flag when he was away, I think some jealous swipe it, while he is hunting. So Ruth has to make one. I am sure there is going to be excitement sometime this week. My brother George is going to be in too, for the first time.

We cannot see the open water now,

it is far off shore now about 15 to 20 miles. We are glad the sunshine has come back to us, after we spent our happy Christmas in the dark days. Thanks for many things."

Mr. & Mrs. Sam Agnasagga

Keep writing parents, we love to hear from you!!!!

TEENAGE GIRL OF THE MONTH

Edith Ahmaogak

SCIENCE - ROOM I

In unit 8 we are studying about the different parts of our body, such as eyes, ears, nose, heart, lungs, and stomach. These are some of the main parts, or organs that do certain work for our body. Every different organ has its own kind of cells. In the abdominal cavity, are the main organs of the digestive system such as the stomach, liver, and intestines. The largest organ of your body is the skin, which forms a protective covering over your body and helps keep out dirt and germs. Underneath your skin are the bones and muscles that gives your body its shape. Your skeleton forms the framework of bones on which the rest of your body is built. Some parts of the skeleton, such as the skull and the ribs, protect delicate organs of your body. You could not move about as you do if you had no bones to act as levers in pushing and pulling your body from place to place. Your skeleton has more than 150 lubricated joints held together by tough ligaments. Without muscles to help support this framework, it would collapse into a heap of bones. Cartilage in your nose & ears gives them shape and holds them up, yet it lets them be flexible too.
